PRODUCT DATA SHEET

ADEKIT A 130 / H 9930

TWO-COMPONENTS EPOXY ADHESIVE
MULTIPURPOSE - FAST SETTING

DESCRIPTION
Embedding and anchoring of metal rods on hollow or full supports
Bonding of decorative elements: facing, tiles etc...
Bonding of concrete prefabricated elements (pipes...), reinforcement and repairing of structures

PROPERTIES
- 2 components room temperature curing Epoxy adhesive
- Fast setting product adapted to reduce assembly time
- Liquid product suitable for injection
- Excellent mechanical performances

</tbody>
</table>

(1) Cured 16 hours at 70 °C
(2) Cured 30 minutes at Room Temperature
(3) Working temperature is defined as the temperature at which product keeps 80% of its initial Lap Shear Strength after 1000 hours ageing at this temperature, value on Aluminium, measured at 23 °C.
HANDLING TIME

At 23 °C (min) 12 LT-006-B

(1) Handling time is defined as the time needed to obtain Lap Shear Strength on Aluminium at 23 °C, of 1 MPa.

PROCESSING

- **Equipment**: ADEKIT A 130 packaged in 50 ml cartridges and require a manual or pneumatic gun. Please consult our technical department for applications needing a machine.
- **Substrate preparation**: The item to be bonded must be free of all dirt, oil or other foreign matter. A clean, dry surface is a must. 
  Consult our Technical Support about surface preparations.

HANDLING PRECAUTIONS

Normal health and safety precautions should be observed when handling these products:

- Ensure good ventilation.
- Wear gloves, glasses and protective clothes.

For further information, please consult the Safety Data Sheet.

STORAGE CONDITIONS

Shelf life of **ADEKIT A 130** is **12 months** in a dry place and in original unopened containers at a temperature between 15 °C and 25 °C.

Shelf life of **ADEKIT H 9930 Resin** is **24 months** in a dry place and in original unopened containers at a temperature between 15 °C and 25 °C.

Shelf life of **ADEKIT H 9930 Hardener** is **12 months** in a dry place and in original unopened containers at a temperature between 15 °C and 25 °C.

PACKAGING

- **A 130 / 50ml**
- **H9930 Resin + H9930 Hardener**
  - Box of 12 cartridges
  - KIT (0.5 + 0.5) kg
  - KIT (34 + 34) kg

FURTHER INFORMATION

The information herein is offered for general guidance only. Advice on specific applications is available on request from the Technical Department of Sika Advanced Resins. Copies of the following publications are available on request: Safety Data Sheets.
VALUE BASES

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

HEALTH AND SAFETY INFORMATION

For information and advice regarding transportation, handling, storage and disposal of chemical products, users shall refer to the actual Safety Data Sheets containing physical, ecological, toxicological and other safety-related data.

LEGAL NOTICE

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika’s recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product’s suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
