BUCHAREST, ROMANIA

BUILDING TRUST

ANA TOWER, OFFICE BUILDING, BUCHAREST, ROMANIA

PROJECT INFORMATION

Project name: Ana Tower Office Building

Location: Bucharest

Glass Facade in m²: 6,800

Year of completion: 2021

PROJECT DESCRIPTION AND REQUIREMENTS

Ana Tower project is a 25-storey office building, LEED PLATINUM certified. The facade manufacturer required an efficient solution to be able to handle the bonded panels 24 hours after completing the manufacturing cycle. Sika products and solutions for structural sealant glazing as well as weather sealing fulfilled customers' expectations.

SIKA SOLUTIONS

Dedicated support was provided by Sika Romania as well as the Technical Department of Sika Services at Corporate to finalize an optimum bonding solution. Preliminary trial tests ensured the successful structural sealant glazing application with Sikasil® SG-500.

PRODUCTS USED

- Sikasil® SG-500
- SikaTack® Panel-50
- Sikasil® WS-605 S
- SikaMembran® Universal
