

# SikaFast®-555 LO3

## FAST RIGID ADHESIVE

SIKA  
MARINE  
THE  
PROFESSIONAL'S  
CHOICE

## USAGE

Fast curing adhesive to bond various elements with a strong and rigid bond (e.g., padeyes)

## KEY FEATURES & BENEFITS

- Fast process:** Glued components can be loaded after only 15 minutes
- High strength and impact resistance:** 80% of final strength reached after a few minutes
- Easy to use:** Small and convenient seringe format
- Fast & efficient workflow:** Good adhesion to most substrates with minimal surface preparation

Colors	Grey
Sales formats	10 ml seringe
Shelf life	12 months
Technology	Acrylate

## SURFACE PREPARATION\*

	ABRASIVE PAD 80/100	SIKA® CLEANER P
<b>Bare metals</b> (e.g., stainless steel)	•	•
<b>Corrosion protected metals</b> (e.g., aluminum anodized)	•	•
