| Color (CQP001-1) | Light blue, transparent |
| Application Temperature | 5 – 40 °C |
| Application Method | Spray and wipe off |
| Shelf Life | 60 months |

CQP = Corporate Quality Procedure

DESCRIPTION

Sika® Cleaner G+P is a water-based, alcohol containing, light blue transparent cleaning agent for glass, plastics and non-porous substrates. Sika® Cleaner G+P can be used for the removal of finger marks, residues and general grime. The product leaves no residue on the surface, thus ensuring easy use and no need to re-polish the glasses.

PRODUCT BENEFITS

- Water-based cleaner
- Makes silicone residues visible
- Can be used on most non-porous substrates

AREAS OF APPLICATION

Sika® Cleaner G+P is used to clean screen prints on vehicle glasses. In addition it can be used for cleaning purposes on almost all non-porous substrates.

METHOD OF APPLICATION

Apply Sika® Cleaner G+P on surface and wipe dry with a dry, clean, lint-free towel. Surfaces must be allowed to dry completely prior initiating the next step in surface preparation (e.g. activation or priming).

Sika® Cleaner G+P concentrate needs to be diluted with deionized water. The mixing ratio is 1 to 4 thus 5 l concentrate need to be diluted with 20 l deionized water.

IMPORTANT NOTE

Before applying Sika® Cleaner G+P to sensitive surfaces (e.g. plastic, paints, etc.), we recommend to test Sika® Cleaner G+P on a small, possibly non-visible area of the base material. Consider that before application of the adhesive or sealant, the surface may need to be prepared accordingly.

FURTHER INFORMATION

The information herein is offered for general guidance only. Advice on specific applications is available on request from the Technical Department of Sika Industry.

PACKAGING INFORMATION

| | |
|---------------|--------|
| Trigger spray | 500 ml |
| Canister | 25 l |
| Concentrate | 5 l |

BASIS OF PRODUCT DATA

All technical data stated in this document are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

HEALTH AND SAFETY INFORMATION

For information and advice regarding transportation, handling, storage and disposal of chemical products, users shall refer to the actual Safety Data Sheets containing physical, ecological, toxicological and other safety-related data.

DISCLAIMER

The information, and, in particular, the recommendations relating to the application and enduse of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
