

Sikaflex®-592

ASSEMBLY ADHESIVE

SIKA
MARINE

THE
PROFESSIONAL'S
CHOICE

USAGE

Sikaflex®-592 is an assembly adhesive highly resistant to dynamic stresses suitable for interior and exterior bonding and sealing applications in the maritime industry.

KEY FEATURES & BENEFITS

- **Capable of withstanding dynamic stresses:** Ideal to assemble, gap-fill and joint stressed parts
- **Fast & efficient workflow:** Good adhesion to most substrates with minimal surface preparation
- **All-rounder for interior & exterior:** Very good weathering resistance
- **Health-conscious formula:** Isocyanate, solvent, phthalate and silicone-free
- **Above & below waterline:** Suitable for below the waterline applications on boats

Colors	White
Sales formats	300 ml cartridge
Shelf life	12 months
Technology	Silane Terminated Polymer (STP)

SURFACE PREPARATION*

	ABRASIVE PAD VERY FINE	SIKA AKTIVATOR-205	SIKA MULTIPRIMER MARINE
Bare metals (e.g., stainless steel)	•	•	
Corrosion protected metals (e.g., aluminum anodized)		•	
Non-ferrous metals (e.g., copper)	•	•	•
GRP	•	•	
ABS		•	•
Hard PVC		•	
Glass		•	
Wood			•

*For non-professional/DIY users

Professional users must consult the latest version of the Sika surface preparation guideline
