

VENDING MACHINES AND STORE REFRIGERATORS ASSEMBLY SOLUTIONS

SEALING AND BONDING SOLUTIONS FOR VENDING MACHINES AND STORE REFRIGERATORS

Sika technologies are suitable to bond the most common substrates used for industrial applications, offering a competitive advantage with cost-optimized and reliable solutions. Manufacturers of refrigerators and vending machines use Sika solutions to bond and perfectly seal glass doors and covers; while temperature control and food preservation are combined with aesthetics. Sikaflex® solutions fully meet all these requirements, providing structural and durable bond on glass, aluminum and stainless steel frames. Moreover, SikaFast® solutions can be used for fast fixture applications of small components such as displays, pushbuttons, plates and mounting brackets.

ADVANTAGES

- No welding process and metal buckling
- Smooth look without visible clamps or screws
- Possible use of thinner metal sheets
- Reliable and durable joints
- Easy and fast process: sealing and bonding in one step

PRODUCT FEATURES

- Elastic and structural assembly solutions
- Optimized both for large and short scale industrial applications
- Non-sag properties for vertical applications
- High elongation and tensile strength properties with Sikaflex®-260 N
- Gap filling and short handling time with the 2-component technology of SikaFast®-555 L5
- Food approved solutions (indirect contact): Sikaflex®-522 and Sikaflex®-252

Elastic bonding and sealing of mineral glass on metal frame with **Sikaflex®-260 N**. For applications requiring food approval, **Sikaflex®-522** and **Sikaflex®-252** can be used. Reliable assembly of displays and small components in plastics and metals with **SikaFast®-555 L5**. Body removable sealing with **SikaLastomer®-710**.
